CENTRAL RURAL ELECTRIC COOPERATIVE, INC

Rate Sheet Number 4 of 25

Applies to Cooperative's allocated service territory (Location)

STANDARD RATE SCHEDULE: General Service Rate GS 10

AVAILABILITY:

Available for any type of industrial or medium commercial use, at any point within the Cooperative's certified area, having a maximum demand not in excess of 50 kW, taking single-phase, or three-phase service supplied at one point of delivery and measured through one kilowatt-hour meter (unless otherwise specified by contract) and subject to the Terms and Conditions of Service of the Cooperative.

MONTHLY RATE:

Service Availability Fee: \$50.00 per month

Plus

Demand Charge: \$8.25 per kW of billing demand

Plus

Energy Charge: First 150 kWh per billing demand kW \$00.101000
Over 150 kWh per billing demand kW \$00.048400

DETERMINATION OF BILLING DEMAND:

The billing demand shall be the maximum kilowatt demand established by the member for any consecutive fifteen-minute period during the month for which the bill rendered, as indicated or recorded by a demand meter, but in no case less than seventy percent (70%) of the maximum demand established during the past eleven (11) months.

MINIMUM MONTHLY BILL:

The minimum monthly bill shall be the higher of the following charges, as determined for the member in question.

- A. The minimum monthly bill specified in the contract for service
- B. The demand charge, but no less than \$75.00

STANDARD RATE SCHEDULE: Street Lighting Service Rate 14

AVAILABILITY:

Available upon request by any commercial, community, or municipal organization within the Cooperative's service area.

TYPE OF SERVICE:

Standard Security Lamp

MONTHLY RATE:

Standard security lamp installed on existing cooperative distribution pole: \$8.65 each

Additional wooden pole: \$3.25 each

*Transformer Fee: \$10.00

*(Applicable when additional transformer is required to provide secondary voltage to light)

BILLING ADJUSTMENTS AND TERMS OF PAYMENT:

Tax Adjustment—Reference Rate Sheet Number 22

Terms of Payment—Reference Rate Sheet Number 22

Power Cost Adjustment-Reference Rate Sheet Number 22

An additional \$1.25 per lamp per month will be charged on lamps installed on metal poles.

CONDITION OF SERVICE:

1. Street lighting equipment, including lamps, fixtures, controls and the necessary street lighting circuits, transformers and additional guys and fittings, will be furnished and maintained by the Cooperative.
2. Lamp replacements will be made by the Cooperative without additional charge, except that any damage to lamps and luminaries resulting from vandalism shall be charged to the member at cost as a separate item on the monthly bill for service. Outages should be promptly reported.

Issued by: David Swank, CEO

CENTRAL RURAL ELECTRIC COOPERATIVE, INC

Rate Sheet Number 15 of 25

Applies to Cooperative's allocated service territory (Location)

STANDARD RATE SCHEDULE: Street Lighting Service (Cont.) Rate 14

CONDITION OF SERVICE (Continued)

3. Service will be furnished for future additional lamps connected to existing overhead secondary circuits in accordance with the above charges.
4. This schedule applies to either multiple or series street lighting circuits. The Cooperative will determine type of circuit.
5. Charges for annual use will be billed monthly during the lighting season in equal installments.

OPERATION AND MAINTENANCE:

The Cooperative shall own, operate and maintain the thoroughfare street lighting system. Upon receipt of notice from the municipality of failure of light to operate, the Cooperative shall make repairs or replacement within a reasonable time during regular working hours and favorable weather conditions.

BURNING SCHEDULE:

The standard schedule shall be from dusk to dawn service, and shall include approximately 4,000 hours of service per year.

Effective **March 1, 2018**

CENTRAL RURAL ELECTRIC COOPERATIVE, INC

Rate Sheet Number 16 of 25

Applies to Cooperative's allocated service territory (Location)

STANDARD RATE SCHEDULE: Security Light Rate 17

AVAILABILITY:

Available upon application to all members for illumination of outdoor areas at any point on or near the distribution lines where proper secondary voltage is available and subject to the established Terms and Conditions of Service of the Cooperative.

MONTHLY RATE:

The cost for each standard security lamp installed on Cooperative's pole with existing facilities is \$8.65 per month. An additional pole and up to 100 feet of secondary conductor may be provided for \$3.25 per month.

RATE PROVISIONS:

The above rate for the lamps only is based on the Cooperative installing the lamp or lamps on existing poles with existing secondary facilities. Installations requiring an additional transformer to support the lighting will be subject to a transformer fee of \$10 per month. If additional poles and facilities are required, the Member shall make a contribution equal to the cost of material and labor for the necessary facilities. All facilities will remain the property of the Cooperative.

CONDITIONS OF SERVICE:

1. The member shall furnish to the Cooperative, without cost to the Cooperative and on the forms suitable to it, all rights, permits and easements necessary to permit the installation and maintenance of the Cooperative's facilities on the member's property and as needed by the Cooperative in providing service hereunder.
2. The Member shall be responsible to the Cooperative for damage to its facilities resulting from actions of persons or animals on member's premises.
3. Upon receipt of notice from the municipality of failure of light to operate as provided, the Cooperative shall make repairs or replacement within a reasonable time during the regular working hours and favorable weather conditions.

Central Rural Electric Cooperative Board of Trustees – February 1, 2018

Issued by: David Swank, CEO

CENTRAL RURAL ELECTRIC COOPERATIVE, INC

Rate Sheet Number 23 of 25

Applies to Cooperative's allocated service territory (Location)

STANDARD RATE SCHEDULE: Distributed Generation Rider

APPLICATION:

Applicable to Distributed Generation smaller than 300 kW of connected generation connected to the cooperative's lines in accordance with the cooperative's service rules and regulations and the cooperative's *Distributed Generation Procedures and Guidelines Manual for members* (available on request).

This rate is not applicable to temporary, shared, or resale service. This rate is applicable to service supplied at one point of delivery and measured through one meter.

SALES TO MEMBER:

Sales to a distributed generation member shall be consistent with the applicable retail rate established by the cooperative and in use by the member as if there were no distributed generation installation.

PURCHASES FROM A MEMBER:

Facility classified as 300 kW of connected generation and smaller

For power produced in excess of on-site requirements, the member will be compensated by the retail purchase meter running in reverse (Net metering). The cooperative shall bill the member for the excess of energy supplied by the cooperative over and above the energy supplied by the member during each billing period according to the cooperative's applicable retail rate schedule.

Net metering is defined as measuring the difference between the electricity supplied by the cooperative and the electricity generated by the member's facility and fed back to the electric grid over the operable time period.

When the energy supplied by the member exceeds the energy supplied by the cooperative during a billing period, the monthly charge and/or minimum bill of the retail rate schedule shall be billed by the cooperative. Any net excess energy for the billing period shall be credited, or paid in dollars, in the next billing period(s) at a rate equal to the avoided cost of the cooperative's power supplier.

Rate Sheet Number 24 of 25

Applies to Cooperative's allocated service territory (Location)

STANDARD RATE SCHEDULE: Distributed Generation Rider (Continued)

PURCHASES FROM A MEMBER

Facility classified as 300 kW of connected generation and smaller (continued)

Member must be a Qualifying Facility (QF) as defined by the Public Utility Regulatory Policies Act of 1978 (PURPA). If member is not a QF, the cooperative and/or its power supplier may, at its sole discretion, elect to purchase power from the Member under the terms of this section.

There shall be no "net metering" for distributed generation facilities larger than 300 kW of connected generation. Systems with an installed capacity greater than 125 percent of the customers average peak load may be excluded from the net metering provision and shall be paid under the small power producer or qualifying facilities tariff, at a rate equal to the avoided cost of the cooperative's power supplier.

FACILITIES CHARGE

Facilities charge will be assessed at the sole discretion of the cooperative on a non-discriminatory case-by-case basis to recover any additional operation and maintenance expense caused by the member's facility.

DATA ACCESS-COMMUNICATIONS LINK

In addition to all other charges in the member's tariff and this rider, the member will provide the cooperative, at the member's own expense, a communications link as approved at the sole discretion of the cooperative for remotely obtaining meter readings at a time or times of the month as determined at the cooperative's sole discretion.

CONTRACTS

An Interconnection Contract, between the member and the cooperative, shall be required in all cases.

STANDARD RATE SCHEDULE: Renewable Energy Option – Rider R

Central Rural Electric Cooperative (CREC) members have the option of participating in a voluntary Renewable Energy Program. Members may purchase Renewable Energy in blocks of 100 kWh per month or elect to receive one hundred percent of their monthly electricity requirement from renewable solar or wind sources. A member may not purchase Renewable Energy in an amount that exceeds the customer's monthly consumption.

CREC gets their renewable energy for this program from its on site solar installation facility located in Stillwater.

The Renewable Energy Program is a voluntary program, open to all CREC accounts, and has a contract requirement.

The Renewable Energy Rate ("Rider R") is in addition to any charges the member currently sees on their bill. Currently Rider R is equal to \$0.0323 per kWh. The Cooperative may change the Rider R once per calendar year.

If a member decides to sign up and then wants to quit participating in the Renewable Energy Program, they may terminate billing under this Rider R by giving the Cooperative at least thirty (30) days prior notice. After receiving such notice, the Cooperative will terminate billing under this Rider effective with, or prior to, the member's next meter read date. The Cooperative reserves the right to terminate this Rider or revise the pricing or minimum purchase amount of the Rider after giving sixty (60) days prior notice.

If a member does not want to participate in the Renewable Energy Program, their service is not affected. The Renewable Energy Program is voluntary and Rider R, if chosen, is in addition to the applicable rate schedule. If the member-owner chooses not to participate, no change will be made to the service and charges the member is currently receiving.
