

**SAFETY  
FIRST**

**LOOK UP  
LOOK AROUND  
STAY SAFE**

# KIDS CAN BE ... DARING ... CURIOUS ... INDEPENDENT ... **IN DANGER!**

Danger? No, maybe not from falling. Did they look up before climbing up? Do they know they should? Each year, children are killed climbing trees that come into contact with power lines. Teach them to Look Up, Look Around and Stay Safe!

**SAFETY  
FIRST**

## **SURVEY YOUR YARD AND NEIGHBORHOOD FOR DANGER**

Teach children to never climb trees near power lines. Even if the branches aren't touching the lines, they could make contact when weight is added to the branches. Help them understand the danger. Keep them safe.
